## **WORK EXPERIENCE**

UI Software Engineer

June 2015 - Present

*Dailymotion – Palo Alto, CA*

- Lead UI development of self-serve publisher widget configuration, self-serve advertiser campaign management, and internal administration interface.
- Transitioned UI hosting from hosting on AWS S3 to hosting using Docker on AWS EB.
- Developed and resolved issues with widget integration on external publisher websites.

UI Software Engineer

May 2015 – June 2015

*Live Nation – San Francisco, CA*

- Developed music artist websites based on Bootstrap and Zend Framework.
- Ported existing venue websites to mobile-first designs.

Information Technology Specialist

May 2011 - May 2015

*University of Hawaii at Manoa – Honolulu, HI*

- Lead small frontend team to develop web applications geared towards administrators, advisors, and students.
- Administered and standalone servers running Microsoft SQL Server and Apache Tomcat.
- Implemented operational tools and procedures such as Git, Jira, Sonatype Nexus, and Vagrant.
- Trained new student hires in the latest web technologies.

Computer Support Specialist

January 2008 – May 2011

*University of Hawaii at Manoa – Honolulu, HI*

- Developed various dynamic JSP web applications geared towards administrators, advisors, and students.
- Resolved computer problems such as virus cleaning, firewall updates, and hardware repair for various campus offices.
- Administered standalone servers for STAR, Arts and Sciences, and the Honors Program.
